Professional Summary

I am a third-year Management Information Systems (MIS) student at Bilgi University, pursuing a minor in Computer Engineering. With a strong interest in technology, AI, and data, I have developed a solid foundation in programming and analytical thinking. I possess strong problem-solving skills and am currently seeking an internship to gain real-world experience and further develop these skills. .

Experience

Front Desk Assistant   Jul 2023 — Sep 2023

Utopia World Resort & Spa Hotel   Alanya / Antalya, Turkey

Projects

Machine Learning-Based Preference Prediction for Mountain vs. Beach Destinations

Performed data analysis and built an ML model to predict mountain vs. beach travel preferences with 99% accuracy. Used feature engineering, hyperparameter tuning, and evaluation metrics to optimize performance

Sorting--Searching Algorithm Performance Analysis

Implemented and analyzed the performance of various sorting and searching algorithms. Focused on comparing the time complexity, space complexity and efficiency of algorithms like Quick Sort, Merge Sort, Binary Search Tree, and Hash Tables through visualization and performance testing.

Education

Management Information Systems (English) - Bachelor's Degree   Oct 2021

Computer Engineering (English) -Minor Degree   Aug 2022

Istanbul Bilgi University   Istanbul, Turkey

Activities and Communities   100% Scholarship
                                                                   3.01 GPA
- Bilgi University Dance Club (Board Member)
- Bilgi Technology Club (Active Member))
